

INFORMED CONSENT FORM

WINTERBREATH: COLLECTIVE BREATHING AND MUSIC LISTENING

I hereby confirm that I

1. have read and understood the information about the research. I have had the opportunity to consider the information and my participation, and to ask questions which have been answered to my satisfaction. I am aware that non-invasive physiological data (such as breathing activity and heart rate variability) will be collected during the study, and I agree to this data collection.
2. understand that my participation in this research is entirely voluntary and that I may discontinue my participation at any time during the data collection without having to provide a reason for doing so.
3. understand that if I stop participating in this study, I can withdraw my collected data up to 7 days after the experiment. A simple e-mail to the researcher is sufficient for this. I do not have to give a reason for withdrawing my data.
4. understand that stopping my participation will not affect my relationship with the researcher, IPEM and UGent.
5. understand that the data collected during this research will be processed in accordance with the legal provisions and the information provided to me.
6. understand that I may receive a summary of the study results.
7. hereby grant permission to the researchers to publish the research results in scientific journals and to discuss them at scientific meetings on the basis of the information that I provide, on condition that my identity cannot be traced.
8. agree to participate in the research.
